

## Modify mobile layout

Posted by Wemessage - 25 Feb 2020 04:33

---

Right now our mobile menu is crappy due to huge amount of menu items.

namely we have main category -> image + sub category -> sub categories.

which makes it really frustrating to reach needed category on mobile. And almost 80% of our visitors are mobile users.

We need something like this for a mobile menu: [www.systeemplafond.nu/](http://www.systeemplafond.nu/)

they use megamenu which transforms it to a very fast mobile menu

Any advies on how to make it to look like that ?

---

Currently have something like this..

Looks much better but still slow as hell.

```
require([
    'jquery',
    'mage/translate'
], function ($) {
    $('.btn-submobile').click(function () {
        $(this).prev().slideToggle(200);
        $(this).toggleClass('btsub-active');
        $(this).parent().toggleClass('parent-active');
    });
});
```

```
function cloneMegaMenu() {
    var breakpoints = 1024;
    var doc_width = $(window).width();
    if (doc_width > 0){
        e.preventDefault();
        var el = $(this);
        $(this).next('div').find('h3.sm_megamenu_nodrop.title-cat').replaceWith(function(){
            return "$"+$.mage.__("View ") + el.text() + "$";
        });
        $(this).nextAll('div').toggle();
    }
    });
} else {
    $('#navigation-mobile
.sm_megamenu_head_item>.sm_megamenu_title>.sm_megamenu_nodrop').nextAll('div').show();
    $('#navigation-mobile a.sm_megamenu_nodrop.title-cat').replaceWith(function(){
        return "$"+$(this).text().replace($.mage.__("View "), "") + "$";
    });
    $('.icon_items_sub').each(function(){
        if($(this).attr('data-img')){
            $(this).html("");
            $(this).attr('data-img', '&quot;&quot;');
        }
    });
    var horizontalMegaMenu = $('#navigation-mobile .horizontal-type');
    var verticalMegaMenu = $('#navigation-mobile .vertical-type');
    $('.sm_megamenu_wrapper_horizontal_menu .sambar-inner
.mega-content').append(horizontalMegaMenu);
    $('.sm_megamenu_wrapper_vertical_menu .sambar-inner
.mega-content').append(verticalMegaMenu);
}
}

cloneMegaMenu();

$(window).resize(function () {
    cloneMegaMenu();
});
});
```
