

Product out-of-stock enquiry

Posted by Mukundan - 08 Nov 2016 17:01

Hi sir,

I am using your theme since 2 months i need to do some changes in the theme, Can you support me to do them.

1. Need to show the popup enquiry form when the product is out of stock.

2.I have added the accessories tab under the single product, I need to hide them when i don't upload accessory products, and i don't need to show them in catalog and search. it should be seen only in the product inner pages.

Can you please help me the integrate the same in the site.

Dear sir,

Support is free in support time, but if you want to customize something, you will have to pay fee.

Thanks!
