

## Footers not showing up on the product page

Posted by Arti Rathi - 03 Jun 2017 16:07

---

Hello,

I have configured the footer in the product page layout, but its not showing up. Could you please help ?

I fixed this, but now I am getting following error -

2017-06-18 0:16:40 - PHP Notice: Use of undefined constant php - assumed 'php' in /catalog/view/theme/so-shoppystore2/template/common/footer.tpl on line 133

Please help.
