if you want to live there without time constraints then I have great news for you. You can get Vanuatu citizenship by investment program <https://migronis.com/vanuatu> As far as I know, after investing from \$ 130,000 you can be granted citizenship. I like that there is no wealth, inheritance, capital gains and property taxes in this country. So then the choice is yours. If you have an investment you will have no problem getting such benefits.

That is, just by investing a certain amount in real estate you can get a passport to live in another country? It's really quite convenient.
